**Artistic Plasterware Designs** are please to present our range of stock fibrous products all of which are manufactured in our own workshop to the highest possible standards. Every item is made in the traditional way passed down by craftsman thought the years.

We can also manufacture decorative plasterwork to match any existing design or historical period.

**Artistic Plasterware Designs** was established in 1978 in the same premises that it trades from today. The present owner started work as a plasterer in 1980 working for his father's business as an apprentice from leaving school and has continued in the plastering trade for the last 32 years taking over the business in 1996 when his father retired.

**Artistic Plasterware Designs** carries out all plastering work, fibrous and traditional, doing anything from new plasterwork to restoration and renovation. Artistic Plasterware Designs manufacture all ornamental plasterware products within our own workshop using traditional method which include:

- Manufacture from stock moulds
- Creating unique moulds to match existing period properties.

All products are made from traditional casting plaster and reinforced with hessian backing and wooden lathes.

All the companies employees are 'apprentice' trained and have multiple years of experience before becoming highly qualified fitters, plasters and ornamental plasters.

**Artistic Plasterware Designs** offer a personalized measuring service within your own home.

**All quotations are provided free of charge and you are under no obligation to purchase!**
